"Surrounded in the Beit Midrash by the Kol Torah, I feel part of a community of women who want to be invested in Torah, in the Jewish community and in having spiritual experiences. It hit me that I am in a very special place."

Beit Midrash: The Heart of the Midrasha

A t Midreshet Lindenbaum, you will learn with a *chavruta*, which allows you to delve deeply into the Torah, developing both the skills and the love for learning on your own. Our talented and dynamic teachers welcome and respect all questions, and take your learning to the next level as they guide you in the Beit Midrash, open up new vistas in classroom discussion, and invite you to their homes to share Shabbat together.

Learning is a window into a way of life. Analyzing the stories in Tanakh, deciphering the complexities of the Gemara, and understanding the development of Halakha enable you to grow in *middot, yirat shamayim* and *shemirat mitzvot*. The connections you form with your teachers and fellow students through Torah learning create the strongest bonds. Find mentors and friends for life!

"I developed a new world, a new way of learning. It's not just about learning the simple meaning like I had always done — I gained the skills to learn in the future and discovered depth in the sources that I had never known."

Religious Growth

Spiritual growth goes hand in hand with learning Torah. Meaningful learning creates a stronger connection to Hashem and a deeper commitment to *mitzvot*. Our shiurim, guest speakers and spiritual experiences such as *tefilot*, *shabbatot* and *tiyulim*, all help you experience different modes of spirituality and create a personalized connection to your Judaism.

Our **Individual Spiritual Program** (ISP) pairs you with a staff mentor for regular meetings to develop an individualized and goal-oriented plan to foster spiritual growth and implement what you learn at your own pace. It's an incredible opportunity to think deeply about where you are, what you are reaching for,

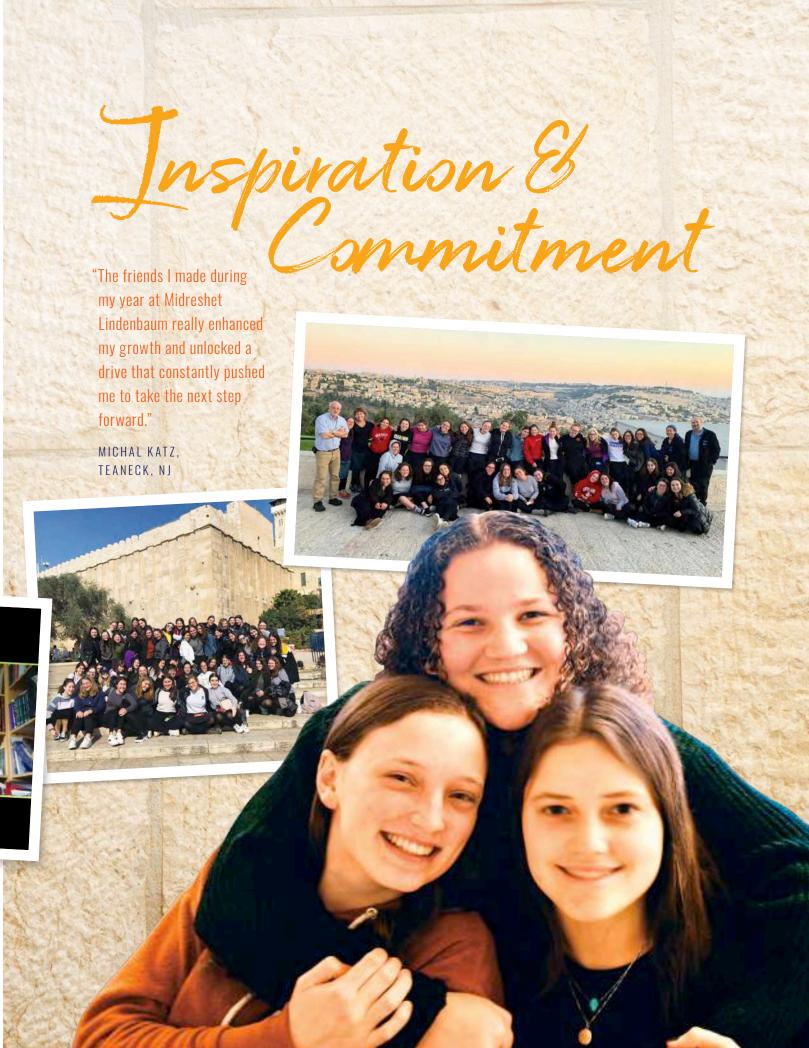

and most importantly, to plan practical steps toward achieving your goals in spiritual growth and Torah observance.

Be a part of *Am Yisrael* in *Eretz Yisrael*

We believe that part of spending a year learning Torah in Eretz Yisrael is seeing and experiencing the land and its people with your own eyes. At Midreshet Lindenbaum, the vibrant extra-curricular programs — including shabbatot and tiyulim around the country, a meaningful chesed program and a myriad of other special programs — complement and enhance the learning and help achieve our goals of religious and personal growth. Pushing your limits, hiking the land, spending shabbat on a yishuv, volunteering as a mother's helper for an ill child and learning about Israel's politics enable you to feel an even deeper connection to Am Yisrael and Eretz Yisrael.

Hiking in the desert like *Bnei Yisrael* in the *Midbar*, joining the Rabbis in a colorful dialogue on the ancient streets of Tsipori, being at the exact place where *Am Yisrael* crossed the Yarden, truly makes your year of learning come alive.

Our trip to Poland is an opportunity to experience a painful and important chapter of our history, providing additional layers of meaning and motivation for your year in Eretz Yisrael.

"The many tiyulim throughout Israel not only connect us to the land, but also connect us to fellow students. While hiking through Mitzpeh Ramon singing songs and dancing, it became clear to me that Midreshet Lindenbaum is the place for me — a place where we have opportunities to learn and think critically, connect to each other, and heighten our appreciation for the Land of Israel and Medinat Yisrael."

Israeli Integration & Overseas Care

Why choose between being totally immersed in a program built for Israelis, and being in a completely overseas environment? At Midreshet Lindenbaum you don't have to choose — you get the best of both worlds!

You can integrate with Israelis in the dorm, in classes and in the Beit Midrash, creating friendships with Israeli peers while learning and gaining different perspectives from the Israeli teachers. At the same time, we give you all the support and guidance of an overseas program that understands your background and experience. If you choose to stay in Israel, your connection with both the overseas and Israeli programs creates a wonderful support system. And if you head back overseas, you go prepared with guidance for university life from those who understand where you are headed, and strong roots in Israel to which to return.
